MANY FAT SALARIES GO TO DEMOCRATS,

Result of Tuesday's Election Will Change Name on Many Checks.

APPOINTMENTS WILL BE MADE.

Probate Judgeship the Richest Plum of the Election-Nearly a Clean Sweep.

Political speculation in St. Louis has taken the form of congratulation over the fat salaries and many jobs which will be at the disposal of the officeholders. There will be many appointments made within the next few weeks and many more next spring when Mayor Wells will change the heads of several of the departments in the Board

of Public Improvements.

Thomas B. Crews receives the biggest compensation for his new office, that of Probate Judge. Judge Henderson, who was defeated for re-election, has managed to clear something like \$125,000 during his four years in office, though to do so the city was compelled to pay the salaries of the clerks and deputies, who are employed under his

direction and appointment.

and deputies, who are employed under his direction and appointment.

Judge Crews will be compelied to deduct this sum from his compensation, so that he probably will receive something like \$85.99 for his services. A rumor that Judge James J. McCaffery may be appointed chief deputy in this office is not denied. The Probable Judge will determine his salary. An effort to put this office on a salary basis may be made at the next session of the General Assembly.

Jesse A. McDonald, Dan G. Taylor and Robert M. Foster will each receive \$4.500 at year as Circuit Judges. Of this amount the city pays \$1.500 and the State \$2.500, the latter sum being the amount the Judges in the interior of the State receive. As the work in St. Louis is a great deal more arduous, the extra compensation is granted.

The Circuit Judges, of whom there are nine, are now controlled by the six Democratic Judges. They will appoint the Juny Commissioner, which pays \$2.500 a year. He has the appointment of a chief deputy at a salary of \$5 a day and four deputies at a salary of \$6 a day and four deputies at \$2.500 and the strengrapher at a salary of \$6 a day and four deputies at \$2.500 at \$2.500

when a stenographer gets a big case, his outside work nets him as much as \$1,000 a month.

The Circuit Judges usually have the appointment of the clerks in the courts really in their hands, as they must confirm those made by the Circuit Clerk. The clerks of the courts are considered experts in their line and receive \$200 a month. Changes in these positions are infrequent, and usually come through graduation from the general office. The Circuit Clerk himself receives \$500 a year out of the fees, and the excess is turned over to the City Treasury. The chief clerk receives \$2,500. Each Circuit Judge appoints his own janitor.

Hiram N. Moore, Judge of the Court of Criminal Correction, will receive a salary of \$5,000 a year. Charles P. Williams will get \$3,500 a year as Prosecuting Attorney, and Richard F. Daiton will receive \$2,500 as Assistant Prosecuting Attorney.

William H. Hauschulte, Clerk of the Criminal Court, will receive \$2,500 out of the fees from his office, the School Board receiving the remainder. John J. Manton, Clerk of the Court of Criminal Correction, will receive \$1,500 out of the period of the Court of Criminal Court, will receive \$1,500 out of the Criminal Court, will receive \$1,500 out of the Criminal Court will receive \$1,500 a year. Judges Ryan and Douglas will preside over the criminal divisions of the Circuit Court until the next October term, when it is probable that two of three Judges elected this fall will succeed them for a term of sixteen months.

will succeed them for a term of sixteen months.

Hiram N. Moore, Charles P. Williams and Richard P. Dalton will take charge of the Court of Criminal Correction as soon as they receive their certificates of election. With the great local victory of Tuesday, the Republicans have left only three elective offices, the Circuit Judgeships now held by Judges Fisher, Spencer and Wood. Next April the City Hall will be turned entirely over to the management of the Democrats, when Mayor Wells appoints a new Park Commissioner, Water Commissioner, Street Commissioner, Sewer Commissioner and maybe a new Fire Chief.

COUNTY REPUBLICANS AFTER JOBS Newly Elected Officials Worry Over the Question of Patronage.

.The question of patronage is beginning to agitate the "faithful" who contributed to the Republican victory in St. Louis County at the election last Tuesday. The success at the election last Tuesday. The successful candidates are being besieged by office-seekers and reminded of the many obligations that they are under on account of the support they received.

Prosecuting Attorney-elect Johnston, County Recorder-elect Westel and County-Clerk-elect Rubl each have a \$109-a-month appointment to make, and applicants for the place age not backward in asserting their claims.

the place are not backward in asserting their claims.

The principal interest centers in the appointment of an Assistant Prosecuting Attorney. Edwin W. Mills of Webster Groves is an active candidate for the place. So is Henry Wolfsberger of Kirkwood. It is salithat F. A. Heldorn, the present Prosecuting Attorney, would like the job, and that A. E. L. Gardner of Maplewood, who was elected to the Legislature, is an applicant. A story was circulated in Clayton yesterday to the effect that Gardner would get the appointment.

story was circulated in Clayton resterday to the effect that Gardiner would get the appointment.

According to the story, Heldorn is to be retained in the office until after the adjournment, of the Legislature, when the Maplewood man is to be named. Gardiner will then either resign his position as Representative or move out of the First District, so as to disqualify himself, as he cannot hold both offices at the same time.

Heldern has been Prosecuting Attorney for the past eight years, assistant to John R. Warfield, his present assistant. The incumbent of the office, as County Counselor, gets \$1.600 a year. The fees from prosecuting felony and misdemeanor cases run these figures up to between \$3.000 and \$1.000.

Peter Wetzel, the newly elected Recorder, has filled the position of deputy in that office for twelve years. He says he has no applicants for the position that he will vacate. It is supposed that the appointment will go to Charles Redman, a copyist in the office. The Recorder's office is worth \$1.000 a year in fees.

John Ruhl, County Clerk-elect, is deputy.

will go to Charies Redman, a copyist in the office. The Recorder's office is worth 14,660 a year in fees.

John Ruhl, County Clerk-elect, is deputy in the office at present. There are more applicants for the position that he will vacate than any other. He says he has about decided on the appointee and says he will announce the name shortly.

Sheriff Hencken, Collector Karrenbrock, Probate Judge Wurdeman, Treasurer Deuser and Circuit Clerk Hollocher were all recected and no changes are expected in their assistants. Coroner-elect Koch has no patronage. Judges Heege and Wiethaupt, the new members of the County Court, have the appointment of a janitor, fireman and night watchman of the Courthouse each of which is a 159 a month job. Custom has decreed that these plums go to the negroes as a reward for their services. They also have the appointment of road overseers in the various districts in the county, but none of these appointments will be made for six months.

"SEND US ANOTHER THOUSAND." One Explanation Given for the Loss of a Republican Representative.

Not the least interesting of the stories which have gone the rounds since the elec-tion of last Tuesday is the one which re-lates to the frantic efforts of some Republican politicians in the interior of the State to "touch" the source of funds at the last Moment.

According to the well-authenticated rumor, this instance was simply another version of the tale of the politician who asserted that victory was in his grasp if the other fellows did not buy his friends. This

time, so runs the story, the price of votes had been raised by flerce competition and the Republican wherewithal was lacking. In a county not a thousand miles from Carroll the contest for Representative was very close. The Republicans had up a man who was not known for his surpassing strength in the community. As a matter of fact, he had been nominated because he was "harmless." It was thought that this was good politics. As no one knew to which Republican faction he belonged it was the hope of both sides finally to throw this rare individual into their own camp.

As the campaign wore on, it became evident that, being identified with neither faction, no one could trust him. At last a solution seemed to have been found. There was campaign money aplenty. The politicians of the county fairly reveled in the support which they were receiving in St. Louis, Messengers to this city returned with lucre. Telegrams and letters brought nice drafts.

So, that Tuesday morning these Republi-TO BE BURIED IN SOLDIER'S UNIFORM

drafts.
So that Tuesday morning these Republican politicians thought they had the game well in hand. Towards 10 o'clock things began to look a little shaky. At noon the situation was desperate. It was raining and the "boys" were getting very practi-Body Is to Be Taken to Union Station Under Military Escort on Sunday Morning.

and the "boys" were getting very practical.

So a last telegram was sent to St. Louis. It read as follows: "Something is wrong. Send us another thousand quick. We must have it to carry the county." Signed by a "licutenant" in the cause.

But the money that they longed for never came. The Colonel in command could see nothing in it. The last wall was too much. His reply was brief. He deatheaded it as follows: "Nothing doing." The initials put the touch of finality on the matter.

And the above is the reason some Republicans from the interior of Missouri are grieving for losing a certain county by about 200 votes. In response to his dying request, Major Surgeon Carle Pesold of the First Regiment, N. G. M., who died yesteriny at his home. No. 1524 Wagoner place, will be buried in his military uniform.

The funeral will take place Sunday morning, at which time the body will be con veyed to Union Station under military es ort, to be shipped to Lebanon, Ill., for

Chairman Rothwell, Secretary Mitchum and James R. Lowell spent all of yesterday collecting the data, which they had used during the past two months, and will put it away for safe-keeping to-day. Most of the furniture was rented and will be returned to the owners. The headquarters of the Jefferson Club in the adjoining rooms will also be dismantied to-day, and the furniture taken out to the clubhouse.

A number of visitors called at the headquarters of the Republican State Committee yesterday. Congressman Richard Bartholdt, whose position as a distributer of Federal patronage has been strengthened by the defeat of Joy in the Eleventh District, was among the number who visited Chairman Akins. The two are in close touch and even if Kerens captures the senatorial nomination of the minority in Jefferson City, he will have flow picking with the State organization and the only Congressman Rodenberg of East St. Louis also called to receive congratulations. He, too, stands in with the Akins-Bartholdt combination, and, by reciprocity, the two Congressmen can do much toward assisting each other. Mr. Akins said yesterday that he did not know whether headquarters would be maintained indefinitely. They have not been closed for nearly three years. According to the statement of certain well-informed politicians, an effort will be made to organize thoroughly the minority in the House and Senate, in order to get the election and police laws repealed. The great obstacle to this end is the fact that so many of the Republicans are tied up with the lobby and cannot be forced to obey the party organization. MAJOR-SURGEON CARLE PESOLD. curred in the promising condition of Governor Yates this evening. The temperature, which remained a little over 161 during the day, took an upward shoot to 192 2-5 at 7 o'clock to-night, and in addition the patient suffered a vomiting spell.

In the opinion of the attending physician, Doctor L. C. Tsylor, the Junket diet on which the patient has been kept for several days, turned the Governor's stomach. It is likely that there will be a change of diet. There was considerable improvement in the Governor's condition this morning, the result of a night of restful sleep. His temperature was lower than it was the day before, and during the morning it did not reach the 192 mark. The executive was able to hear the result of the election, and a letter from 'airman Rowe of the State Central Comm. cc. summarizing the work of the committee, was read to him. He expressed himself as highly pleased with the result, and directed that a telegram of congratulation be sent to the chairman. ish-American War.

years ago, near Orlando, many fossil bones were found. They were small backbones, leg bones and a few skulls and teeth. Most of these specimens were sent to Doctor S. W. Williston of the Kansas University for indentification. He pronounced them exceedingly rare.

Doctor Williston last year went to Chicago to accept a position in the Field Columbian Museum. He sent Mr. Menke to Oklahoma, where he has collected a number of these bones. Speaking of the animals to which the bones belonged, Mr. Menke said they probably were members of the class known as amphiblians, or possibly a few of them were primitive reptiles. The amphiblians constitute the class of animals now represented by frogs, toads and salamanders. The extinct bones were much larger, however, than those of amphiblians now living. If one can imagine a frog as big as an ox he will have some idea of the appearance of these prehistoric monsters that once flourished in Oklahoma.

DOCTORS ENDORSE SWAMP-ROOT

For Uric Acid, Kidney and Bladder Troubles.

DR. KILMER & CO., Binghamton, N. Y.

Gentlemen: While it has never been my habit or inclination to recommend remedies the ingredients of which are not all known to me, it seems as if I should make an exception in the case of Dr. Kilmer's Swamp-Root. My experience, so far as I have tested it in my practice, forces me to the conclusion that it is a remedy of the greatest value in all uric acid, kidney, liver, bladder and other inflammatory conditions of the genito-urinary tract. I now take pleasure in prescribing Swamp-Root in all such cases, with a feeling of assurance that my patients will derive great benefit from its use. I shall continue to prescribe it in other cases in my practice with the expectation of the best results.
